3<sup>rd</sup> to 5<sup>th</sup> June 2022

BERLOT GROUP  
Coaching Teams. Changing Cultures

***Facilitation is not just about the tools you teach, but also how you deliver and adjust these tools for different audience.***

Alchemy is a three-day course designed for individuals and pairs that co-facilitate, co-train, co-present or co-coach.

Alchemy is for facilitators who want to “up their game” and learn to create experiential learning programs. In this course you will learn to incorporate the latest from systems and adult learning theories plus tips from neuroscience into your repertoire. You will learn how to deliver a session seamlessly and in-sync with your partner, should you choose to co-lead.

Magical co-facilitation, inspired participants and deep learning don't just happen. Knowing how to mix science and systems theory with verve and vitality gives you and your partner the power to create and deliver great programmes together.

The focus of Alchemy is twofold:

- 1. On co-delivery.** The dynamic of two people facilitating well together creates a deep connection with participants and a sense of trust and safety that supports learning that sticks.
- 2. Create experiential workshops** where you create powerful learning in line with your objectives, without being tied to your agenda.

### ***The Program Includes The Following:***

- *3 full days of Virtual Live Experiential Sessions delivered on Zoom.*
- *ICF Accredited Certificate - Alchemy is an ICF Accredited course.*
- *You will earn 16.5 CCEs upon completion of the course.*
